

Who is GoodLife Innovations?

We are a private, not-for-profit organization whose mission is to redefine what's possible for adults with intellectual or developmental disabilities by helping them live independent, purposeful, and satisfying lives.

GoodLife was founded in 1977 as Community Living Opportunities (CLO) by families dedicated to providing high-quality, community-based care for their loved ones with disabilities. After 40+ years of service, CLO was rebranded to GoodLife Innovations so we could expand our mission and serve all individuals with barriers to independence.

WHAT IS TARGETED CASE MANAGEMENT?

Targeted Case Managers (TCMs) make sure that those we serve have support and assistance in accessing the services they need the most.

Case managers help individuals and their families or guardians:

- Obtain funding, services and community resources that enhance the individual's preferred lifestyle
- Evaluate the quality of services the individual receives and provide feedback and follow-up to achieve desired outcomes
- Facilitate GoodLife's person centered planning process, called the Quality of Life Plan
- Participate in the Individual Education Plan for those individuals in school and work in collaboration with school representatives

Why Do I Need A Case Manager?

Case managers provide leadership, advocacy, and expertise to ensure the individuals they serve connect with and benefit from the services and supports they need.

Your Case Manager is your guide to help you navigate the complex system of Disability Services.

HOW TO GET STARTED WITH TARGETED CASE MANAGEMENT

1. Contact your local Community Developmental Disability Organization (CDDO) to review the list of TCM agencies, including GoodLife, who are accepting new referrals.
2. Choose a TCM agency by informing the CDDO of your selection and completing and signing a Choice Form.
3. If you choose GoodLife, a CDDO representative will contact us, inform us of your choice, and provide us the with required documentation.
4. The GoodLife TCM assigned to your county will then contact you to begin services.

Get the most out of the services you need.
