

iLink Technologies

A 24/7 SELF-DIRECTED VIRTUAL SUPPORT SERVICE

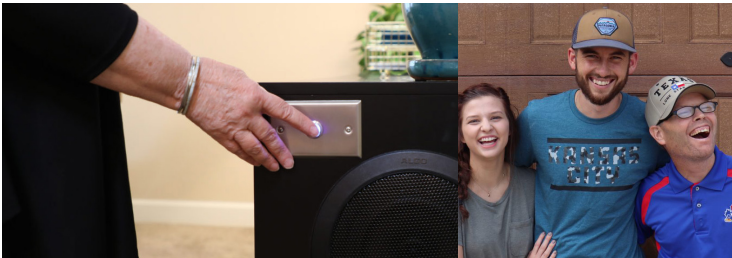

Every person deserves opportunities for self-reliance and choice in their lives. iLink's in-home safety net program gives you the ability to remain in your home longer by offering virtual support.

THRIVE AT HOME

You have complete and immediate control over your privacy and you choose who gets called when you need support. iLink virtual support staff are available, 24/7, to pick up any unanswered calls for support.

HELP WHEN YOU NEED IT

iLink offers the right support, at the right time--use only what you need when you need it.

- 01** Your loved one can control how much or how little support they receive, when appropriate
- 02** Families have customizable access to video and audio feeds
- 03** iLink Assist software is built for customization by using a person's habits to build logic in the platform
- 04** iLink support is available 24/7 and in-home support can be deployed at a moment's notice

VIRTUAL SUPPORT INCLUDES:

- Personal, friendly, and familiar support available 24/7, at the push of a button
- One 360° Camera with fully customizable privacy settings
- 2-way Intercom
- Motion Sensors
- Door Sensors
- PERS (Personal Emergency Response System) for support outside the home
- Stove Support to assist in turning on/off your stove top
